Subject: RE: Willamette Mercury MDV AC Meeting follow-ups

The name that Debra gave was David Pfeiffer. It would be great if we could get him, or maybe some of the EPA Region 5 people who reviewed the Clean Water Services variance, on a call. Would you mind seeing if that is possible?

Thanks,

I'm not sure anyone comes to mind about mercury experts in R5. If she knows who they are can you send me the names and I can see if I can get them on a call?

No worried. I had one more follow up. Is there anyone in Region 5 who you think would have knowledge about effectiveness of mercury source reduction efforts? We have a lot of data from Minnesota, but not anywhere else, but Debra mentioned that Region 5 has a couple of mercury experts who might have some additional information.

Thanks,

Hi Aron,

I'm wondering when you are going to send out the date for the December MDV meeting? I've had several people try to schedule meetings with me that week and I need to get back to them. Thanks!

Subject: Willamette Mercury MDV AC Meeting follow-ups

Willamette Basin Mercury MDV Advisory Committee,

First, I'd like to thank everyone for participating in the first meeting. PowerPoint presentations should be available on the [website](#) soon. We are putting together a meeting summary and will send it to you for review prior to posting it online.

I also wanted to take a moment to encourage all members to do everything they can to come to meetings in person. I do understand that things come up, but we feel that we can have a much more effective discussion and obtain better input from you when you are here in person.

Finally, we would like to postpone our next meeting. We need additional time to prepare materials for the topics that we plan to discuss – notably, the process that DEQ plans to use to determine the Highest Attainable Condition, as well as requirements that we would have for development and implementation of Mercury Minimization Plans. We'd prefer to have that additional time so that we have a productive discussion on these topics. We have a [Doodle Poll](#) to see if committee members are available during the week of December 10-13. Please fill this out ASAP and I will respond next week with a date.

Thanks, and please contact me with any questions.
